

Crab Lines

December 2008

Vol. 47

Dear Friends of the Estuary,

We are pleased to share with you that this year Kerry was recognized as the Nicholls State University Outstanding Alumnus from the College of Arts and Science during the Alumni Federation's reception at this year's NSU Homecoming. Nicholls President Dr. Stephen Hulbert congratulated Kerry for his professional accomplishments, personal record, commitment to the university community, and his untiring support to improve the estuary.

We noticed the picture below and letter on his desk and thought it might be nice for you to know that Kerry was recognized by his own alma mater.

With warm regards,

Susan Testroet-Bergeron
